March 26, 2010

Dear Friend:

Access II, Independent Living Center is a non-profit organization serving the needs of persons with disabilities in an eight county service area in NWMO. We are excited to be hosting our first annual AgrAbility Workshop on April 15, 2010, Dockery Park Building in Gallatin, MO from 10 am to 3 pm. Our partnership with the University of Missouri Extension and MO AgrAbility project will enable us to provide resources and assist people with disabilities employed in agriculture.

The AgrAbility workshop will include speakers, displays, live demonstrations, exhibitors and chuck-wagon cowboy style lunch all provided free of charge, in addition to the workshop. Access II will be providing a "biscuit & gravy" breakfast fundraiser to aide in the financial support of our Ramp/Home Modification Program from 7 am – 9am prior to the workshop.

You can help us by spreading the word and mark your calendar to attend this informational event.

Just imagine if...

In one day, we can connect a farmer, rancher or caregiver of a person with a disability to an assistive device, equipment modification or resources that will allow them to maintain their agricultural lifestyle.

Please contact me for more information and you must RSVP to attend the workshop. Thank you in advance for your support.

Sincerely,

Deanna Brown
Program Manager
